

You

Chris Brown

Now every girl I been with, been with, I see you, baby
It just aint the same
Recently I had a girl and her name was Nikki but she left me
Cause I called her your name And I been on that rebound tip
I can't believe it, you got me feelin' like this
And every other morning it's your face that I miss
Man, your boy's sick cause, shawty, was it then
And I was on that bull when I was with You, you, you, you, you, you, you
Girl, when I was with
You, you, you, you, you, you, you
Girl with You, you, you, you, you, you, you
Girl when I was with
You, you, you, you, you, you, you
Ooh And every other phone call
It's one on one of my dawgs
Man, I just seen Keyshia and Nikki
And I'm up in the mall So what did she have on?
Gucci jeans, baby-t
Air-Force 1s, hair all done
Damn Man, please don't tell me no more
Man, my heart is so sore
I wanna reclaim her
But she'll never get over what I put you through And there's nothin' that I wouldn't do
Man, my momma loveded you
It's my fault, I wasn't true
But I was on that shh when I was with You, you, you, you, you, you, you
I was on that shh when I was with
You, you, you, you, you, you, you
Your girls was trippin cause I was with You, you, you, you, you, you, you
Baby girl, when I was with
You, you, you, you, you, you, you
When I was with you Girl, I know its way too late
To even say Im sorry, babe
I wanna pick up the phone
But inside my heart I know I'm wrong And I still wanna be a man
But I done it through time and time again
Shes sure that Im traveling on
Will leave me lost and all alone when I You, you, you, you, you, you, you
When I was with

You, you, you, you, you, you, you
When I was with You, you, you, you, you, you, you
When I was with
You, you, you, you, you, you, you
Ooh You, you, you, you, you, you
You, you, you, you, you, you
