Respect

Life of Agony

From day one I could not comprehend
Was it us, was it me or was it them?Friends will come and go as it seems
And now I have no shoulder on which to leanStill I do not understand
You break your back for something, well where's the fan?(Show me)
Respect and I'll
(Show me)
Show you right back(Show me)
Respect and I'll
(Show me)
Show you right back(Show me)
Respect and I'll
(Show me)
Show you right back(Show me)
Respect and I'll
(Show me)See the boys that I once called my friends
They'll fake a smile and then they'll shake your handWhen will this ever end?
I look around at my brothers, my only true friends(Show me)
Respect and I'll
(Show me)
Show you right back(Show me)
Respect and I'll
(Show me)
Show you right backYou got a lot to learn my friend
You got a lot to learn about respect
You got a lot to learn my friend
You got a lot to learn about, respect
