

# We Bow

## Islet

Long-standing battle to hear,  
please tell me how did you know, how did you know?  
All at home as the clouds dry out  
we walk into a dream, walk into a dream  
To dive into your world with you what can you see,  
please tell me what can you see?  
As we lie, we lie awake For a normal night, for a normal summer's day  
shadows cover my face, shadows cover my face  
In the absence of norm as the light follows you  
so much to give, he's got so much to give  
Reduced to tears in the world that we hide  
please tell me where do we go from here, where do we go?  
As he smiles, he smiles, he smiles I'm happy to please and I'm happy to appease,  
still as the dead of night, still as the dead  
I'll darken up the world, the whole wide world,  
it's all in the mind, it's all in the mind  
Challenge a heart as we bear these heavy weights,  
how does it feel in there, how does it feel?  
As we bow, we bow, we bow
