Drive

Amen

Drive, drive it home right now, drive it home know how
Take it from my heart, gotta tear yourself apart
From hell, sinking hell, like disease where I dwell
Burning kidneys where I roam, never taking you back home
Let it out, let it out, ride tonightGround, turning ground, burn it down, burn it down
Crucify my nation, crucify the population
Time dollar sings my crime is my time
The dotted line try to find where you gonna hideFrom my eyes from my mind into my children's face, their faces
Stay away! Goddamn it, stay away! Never come back
Disintegrate, decision and the popular creation
Let it out, let it outSo he lied and you lied and that bitch she knows she's gonna die
Keep it hiding, deep inside, lied to swallow her pride
That bitch knows where it goes, down incineration
Incinerate my mind, incinerate my nation, yeahPunishment? Exiled, punishment? Exiled
Watch it fall, watch it fall, watch it fall, watch it fall
Ride tonightDrive, drive it home right now, drive it home know how
Take me from the heart, gotta tear yourself apart
Drive it home right now, drive it home know how
Told you from the start, tear your fuckin' head apart
Drive it home right now, drive it home know how
Take it from the heart, take it form the heart
