

It's Hard for Me to Say

Diana Ross

Didn't know 'til today
That you would love for me to say
All of things I feel
Though you don't doubt they're real
Insecure, very shy
Are the only reasons I have why
I never say the things that you would love to hear
All the words I try
Disappoint me and I cry
So they're words I don't always say, but
It's in my love, it's in my feeling
It's in the very same heart that loved you from the start
It's in the heat, it's in the spirit
And it's got me totally high
It's just hard for me to say why
Kinda sad, kinda blue
Because I wanted to tell you
That you were in my heart
Though we were far apart
Didn't know how to say
All the little things to make you stay
And not to keep assuming
You could read my mind
You're the one I love
Though it's hard for you to know
'Cause the words I don't always say, but
It's in my love, it's in my feeling
It's in the very same heart that loved you from the start
It's in the heat, it's in the spirit
And it's got me totally high
It's just hard for me to say why
