I Do Believe

Gaither Vocal Band

Some say faith is just believing,
Others say it's self deceiving,
Inventing childish dreams to get us through,
But deep inside me there a yearning
for true wisdom not just learning,
I'd trade all my clever questions
for one answer that is true.(Chorus)
I do believe, You are the One
The home I long to find,
My only Hope, God's only Son
I do believe
I touch, I see that all along
You've longed to be
My Lord, My God.Lord, You know I need some answers,
Questions eat at me like cancer,
Make me once again a simple child,
Help me take the risk of losing,
Lose it all to find in choosing,
To believe You are the answer,
Earth and Heaven reconciled.I do believe, You are the one
The home I long to find,
My only hope, God's only Son
I do believe
I touch, I see that all along
You've longed to be...
