I Believe

Sash!

I tried to talk to you
But you're a million miles away
Your head is somewhere else
But Heaven's just a step away

Here I am and I'm for real
Turn to me and you will see
I am true to you
And I'm the one who cares now

I believe
That I can free your mind
And you will see
If you are trying to hide
I just believe
That if you free your mind
You'll turn to me
As I'll turn to you
I believe (I believe)

That I can free your mind
And you will see
If you are trying to hide
I just believe (I believe)
That if you free your mind
You'll turn to me
As I'll turn to you
I believe

I believe
You need another reason
You're too ambitious to be right
You see my good intentions
But you always hide behind your pride

Don't turn away and close your eyes
I wanted to see what's on your mind
How can I explain
If you don't want to listen

I believe (I believe)
That I can free your mind
And you will see
If you are trying to hide
I just believe (I believe)
That if you free your mind
You'll turn to me
As I'll turn to you

I believe (I believe)
That I can free your mind
And you will see
If you are trying to hide
I just believe (I believe)
That if you free your mind
You'll turn to me
As I'll turn to you

I believe
I believe
