

Shape of My Heart

Noah & The Whale

Oh, when I look to the shape of my heart
It's separated only by scars that cut in and cut out
Oh, and leave me without
Oh, a heart that functions at all And when I look to the shape of the sky
I give thanks for this hollow chest of mine
That I no longer feel the great weight of ordeals
That can make this life so unkind Oh, and if there's any love in me
Don't let it show
Oh, and if there's any love in me
Don't let it grow Oh, when the wild was all covered by snow
I forgot the colors that the grass tend to grow
Oh, the trees were all leafless and lifeless and black
And I wondered if the leaves can grow back For your heart is like a flower as it grows
And it's the rain not just the sun that helps it bloom
And you don't know how it feels to be alive
Until you know how it feels to die Oh, and if there's any love in me
Don't let it show
Oh, and if there's any love in me
Don't let it grow Oh, and if there's any love in me
Don't let it show
Oh, and if there's any love in me
Don't let it grow Oh, and if there's any love in me
Don't let it show
Oh, and if there's any love in me
Don't let it grow
