

My First Kiss

3OH!3

My first kiss went a little like this
And twist and twist
Well, my first kiss went a little like this
And twist and twist I said no more teachers and no more books
I got a kiss under the bleachers, hopin' that nobody looks
Lips like licorice, tongue like candy
Excuse me, miss, but can I get you out your panties? In the back of the car on the way to the bar
I got you on my lips, I got you on my lips
At the foot of the stairs with my fingers in your hair
Baby, this is it She won't ever get enough once she gets a little touch
If I had it my way, you know that I'd make her say
She won't ever get enough once she gets a little touch
If I had it my way, you know that I'd make her say My first kiss went a little like this I said no more sailors and
no more soldiers
With your name in a heart tattooed up on their shoulders
Your kiss is like whiskey, it gets me drunk
And I wake up in the morning with the taste of your tongue In the back of the car on the way to the bar
I got you on my lips, I got you on my lips
At the foot of the stairs with my fingers in your hair
Baby, this is it She won't ever get enough once she gets a little touch
If I had it my way, you know that I'd make her say
She won't ever get enough once she gets a little touch
If I had it my way, you know that I'd make her say My first kiss went a little like this
And twist and twist
Well, my first kiss went a little like this
And twist and twist She won't ever get enough once she gets a little touch
If I had it my way, you know that I'd make her say
She won't ever get enough once she gets a little touch
If I had it my way, you know that I'd make her say She won't ever get enough once she gets a little touch
If I had it my way, you know that I'd make her say
She won't ever get enough once she gets a little touch
If I had it my way, you know that I'd make her say
