

Who Do You Want for Your Love

Icicle Works

I'm not yet convinced that pride will come before a fall
I have seen you standing in your Sunday best and all
Waiting for a fool to take you further than you are
Given time you'll finish every heartache that you start
Who do you want for your love?
Better make up your mind 'cause time is passing
You'll be left behind
Who do you want for your love?
Better make up your mind 'cause time is passing
Who do you want for your love?
How can I deny that I would take you for my own?
Love to play the loner till I find myself alone
Perhaps your indecision speaks of why I've tried for so long
Talk about you, sing about your brown eyes in a song
Who do you want for your love?
Better make up your mind 'cause time is passing
You'll be left behind
Who do you want for your love?
Better make up your mind 'cause time is passing
Who do you want for your love?
Could you make that move embrace
That certain moment?
When you know you're on your own
Lose those apron strings
Dance and sing, I know 'cause I've been there
Let me tell you it's no party
When you're lost, count the cost
Falling on someone is not the answer
Who do you want for your love?
Better make up your mind 'cause time is passing
You'll be left behind
Who do you want for your love?
Better make up your mind 'cause time is passing
Who do you want for your love?
