

Forever

Marvin Gaye

Darlin', forever, forever
You can break my heart
Forever, if you want to
I'll play the part of a fool
Just to be with you forever
Forever, darling, forever
 You can taunt me
 Take my love for granted
 But I'll always be just a fool
 Just to be with you forever
 I'll be your slave
 For the rest of my days
 Love you more in so many ways
Just to be with you thrills me through and through
 And darlin', forever, forever
 You can taunt me
 Take my love for granted
 But I'll always be just a fool
 Just to be with you forever
 Forever, forever, I'll love you so
