Let's Try Again Tomorrow

Plankeye

Please don't be angry with me
I told you I was sorry
We better kiss and make up
Why do we fight so much?There's got to be some better way
To convince you to let me stay
Remember when we used to fall down laughing?
I know I'm hung up
I do repent and I promise I will never do it againStaged fight, goodnight
Let's try again tomorrow
Please don't be angry with me
I told you I was sorryThis always happens
When I start to feel like I am something
I'd like to think that
We could find our way around this messRemember when we used to fall down laughing
Why can't we shut up? It's gonna make us
Don't you want to give it another shot?Staged fight, goodnight
Let's try again tomorrow
