

# I've Got You

## Defused

The world would be a lonely place  
Without the one that puts a smile on your face  
So hold me till the sun burns out  
I won't be lonely when I'm down 'Cause I've got you to make me feel stronger  
When the days are rough and an hour seems much longer I never doubted you at all  
The stars collide, will you stand by and watch them fall?  
So hold me till the sky is clear  
And whisper words of love right into my ear 'Cause I've got you to make me feel stronger  
When the days are rough and an hour seems much longer  
Yeah but I've got you, oh to make me feel better  
When the nights are long they'll be easier together Looking in your eyes, hoping they won't cry  
And even if they do, I'll be in bed so close to you  
To hold you through the night and you'll be unaware  
But if you need me I'll be there Yeah, I've got you, oh to make me feel stronger  
When the days are rough and an hour seems much longer  
Yeah and I've got you to make me feel better  
When the nights are long they'll be easier together  
Yeah but I've got you
