

Think Twice

Erykah Badu

Maybe we oughta think twice
Before we start something nice
No need to sacrifice the spice in our lives...oh
Your love is like fire & ice
That's why we oughta think twice, baby
No need to sacrifice the spice in our lives...oh
I really love you
You know I do
Really love you
You know it's true (repeat)
You know I love you baby - you know I do
Think twice think twice (repeat)
