

# Rescue Me

## Mercenary

[Music: Jakob] And now, you remind me  
Of the life, we used to live  
It stings, just like jealousy  
Is it love, in disguise  
When we started to drift away  
From the perfect past we had  
And you wanted to play the game  
Of my bittersweet feelings...(The feelings were so bittersweet) Don't let me go  
My onle love is leaving Won't you rescue me?  
You're my soul companion  
Love is what we make it  
I could never feel What I feel right now  
And you feeling the same way too?  
And dream, what I dreamt back then  
I'm forever blackening...(Becoming black forever) Won't you rescue me?  
Broken heart is bleeding  
Love is what we make it  
I could never...  
Break it...But still I did  
And you cannot blame me And still, this is my honesty  
As I always wanted to be Why do I feel so bittersweet?  
The distance, killing me  
In time, when we grow older  
May life smile upon you dear  
My heart would never surely be colder  
Going through the years in tears...(Cold heart is bleeding  
Turns tears to dust) My onle love is leaving  
We will be forgiven  
My broken heart is bleeding  
We will be forgiven...Don't you rescue me  
I found my real salvation  
Don't you rescue me  
She's my true temptation  
Don't you rescue me...
