

Stick

Ingrid Michaelson

Long, long time ago
You and I put on a show
We ran it in the ground
You said it's not enough
Don't want no broken love
You were no where to be found
Even after, something's gotta hold on
Did any of me stick at all?
Can you hear me singing through the walls?
There's a part of you that stayed with me
Someone else gets to know
Did any of me stick at all?
Did any of me ever stick at all?
I've got somebody new
He dances just like you
Makes me wonder how you are
Can't hide the memory
The memory of you and me
We were kissing in the dark
I'm always after, something that won't hold on
Did any of me stick at all?
Can you hear me singing through the walls?
There's a part of you that stayed with me
Someone else gets to know
Did any of me stick at all?
Did any of me ever stick at all?
We are the road untaken
The moon that's fading
If it means that you and me we got a break it
Well I'm done faking
But I need to know
Do you remember who I am?
Did any of me stick?
Did any of me stick?
Did any of me stick at all?
Can you hear me singing through the walls?
There's a part of you that stayed with me
Someone else gets to know
Did any of me stick at all?
Can you hear me singing through the walls?
There's a part of you that stayed with me
Someone else gets to know
Did any of me stick at all?
Did any of me stick at all?
