How Do You Feel Now?

Barclay James Harvest

How do you feel now?
We've got a reason to go on, newly born
Seems like I've waited for a lifetime
But honey, I believed in youWhen I saw her face
I had to cry
I don't know why
Is she real?Seems like I've waited for a lifetime
But honey I believed in you
To make my dreams all come true
We've got a childI tried and tried to talk it over
Seemed like we'd waited a million years
Then you conceived our child was born
And we were onePicked her up, put her by your side
Saw a smile that you couldn't hideI tried and tried to talk it over
Seemed like we'd waited a million years
Then you conceived our child was born
And we were onePicked her up, put her by your side
Saw a smile that you couldn't hideHow do you feel now?
We've got a reason to go on, newly born
Seems like I've waited for a lifetime
But honey, I believed in you
To make my dreams all come true
We've got a child
