

Before My Time

The Mantras

Verse:

All the saints would say
It took a thousand days
Stretched the veil across the sky
I know it won't be long
Till we crack the dawn
And then we'll have our answers why
But if your observation
Lead to aggravation
And your heart starts wearing thin
Just keep on holding on
You know it won't be long
Until it all begins again

Chorus:

It was before my time
When thoughts aligned
And brought us to this place
Take it day by day
And face your pain
Until it all fades away

x2Verse:

To the south and north
Travels back and forth
Along the ever present plight
And through the east and west
And all creations tests
To live and love this life
But if your conversation
Leads to confrontation
And your heart starts wearing thin
Just keep on holding on
You know it won't be long
Until it all begins again

Chorus:

It was before my time
When thoughts aligned
And brought us to this place
Take it day by day
And face your pain
Until it all fades away

x2Verse:

All the saints would say
It took a thousand days
Stretched the veil across the sky
I know it won't be long
Till we crack the dawn
And then we'll have our answers why
But if your observation
Lead to aggravation
And your heart starts wearing thin
Just keep on holding on
You know it won't be long
Until it all begins againChorus:
It was before my time
When thoughts aligned
And brought us to this place
Take it day by day
And face your pain
Until it all fades away
