

Little Toulouse

Randy

You say that I'm just another boy on this world
Who's trying to romanticize the struggle
But I know when I'm talking about love You say I'm just an immature kid who's always
Always looking for trouble, looking for trouble
Can't avoid it if your trying to be heard We got so little to lose and so much to win
Why don't we realize how fooled we have been? Why do we sell ourselves for the price they give?
Ooh, they let us down but we forgive
Now it's all for one and not all for all
The greed keeps the people, the masses in control We got so little to lose and so much to win
Why don't we realize how fooled we have been?
We got so little to lose and so much to win
Why don't we realize that greed eats from within?
From within Oh, mama, mama, life can get so lonely
Oh, papa, life can get so strange
In times like this, we have to stick together, forever
Brothers and sisters and workers
And comrades and everybody, yeah We got so little to lose and so much to win
Why don't we realize how fooled we have been?
We got so little to lose and so much to win
Why don't we realize that greed eats from within?
