

This Summer Lie

Rhett Miller

This summer lie will end too soon
We are burning too bright
On a run from the moon
All the way to the end
I will carry your lie
Till I'll see you again
This summer lie Not a day blue
You are here with me
And I can finally breathe
I never felt so free
This summer lie And it's a perfect day
With the crashing waves
And you kiss my face
I wanna always stay
In this summer lie will end too soon
We are burning too bright
On a run from the moon
All the way to the end
I will carry your lie
Till I'll see you again
This summer lie
Will I see you again?
In this summer lie.
