Stuck in Your Head

I Prevail

[Intro]
You're not the one I want in my bed
But I'm gonna be the song stuck in your head
Stuck in your head[Verse 1]
Guess what
For the record you're the broken one
Tried to sing along but we got stuck
So we turned it over and over again
But now
Fuzz and sketches [?] all we have
Because [?] worn it down
Couldn't turn it over and over again
Turn it over and over again
[Chorus]
This will be the last song[?]
I'm never gonna play again
You're not the one I want in my bed
I'm not the song you want in your head
This will be the last song [?]
Never gonna play again
You're not the one I want in my bed
But I'm gonna be the song stuck in your head
Stuck in your head[Verse 2]
Guess what
Didn't want to have to write these words
Now you're on the other side, reversed
Never turning over and over again
So now
I'll turn it on cause it's so damn long
All your lies [?] worn me down
You can skip the track cause I'm not coming back[Chorus][Bridge]
You make me sick
Wrong and wrong again
So I'm turning you out
And I'm trading you in
Sick, so sick of it
So I'm turning you out
And I'm trading you in[Chorus]
