

# Static (Electric)

## Chalice

I had to face you again  
I had to taste you once more  
Alone, I had to hit that wall  
With you as my mentor And watch my wretched flesh rot  
Inhaling the stench of regret  
Feeling life stripped from my vertebrae  
Free in my toxin vortex Peak hour  
Sewer side I had to face you again  
I had to taste you once more  
Alone, I had to hit that wall  
With you as my mentor
