

Skin

[Zola Jesus](#)

Safety net, don't hold me now
In this hole I've fallen down
Secret home I made and found
A new way to breathe
Skin come off, skin come off
I've had enough, ooh ohh
Skin come off
And in the sickness, you have faith
And in the thickness you find me
Finally
In the city, you find pain
And the people you see there
That remind you of your role
Let me go
Skin come off, skin come off
I've had enough, ooh ooh
Skin come off
And in the sickness, you have faith
And in the thickness you find me
Finally, finally
You don't have to beg,
Finally
