Skin

Zola Jesus

Safety net, don't hold me now In this hole I've fallen down Secret home I made and found A new way to breatheSkin come off, skin come off I've had enough, ooh ohh Skin come off And in the sickness, you have faith And in the thickness you find me Finally In the city, you find pain And the people you see there That remind you of your role Let me goSkin come off, skin come off I've had enough, ooh ooh Skin come off And in the sickness, you have faith And in the thickness you find me Finally, finally You don't have to beg, Finally
