It's Just Forever (feat. Alison Mosshart)

Cage the Elephant

Gonna make you mine forever Never let you leave my side You can run, you can hide Girl I'm gonna make you mine

> It's just forever It's just forever

Never stop until you love me Even if you treat me cold I'll love you till we decompose And the skin falls off our bones

> It's just forever It's just forever It's just forever It's just forever

Forever (Ahhh) Forever (Ahhh) Forever (Ahhh) Ahhh

Maybe we can die together
Laying side by side
Even in the afterlife
Girl you'll still be mine

It's just forever It's just forever

Promise that you'll never leave me Promise that you'll always need me [?] Bring me your hand, taste of my skin [?] Give me your heart like a hole in the head

Forever (Ahhh)
Forever (Ahhh)
Forever (Forever)

Forever
