Long Misty Days (7" Edit) [2010 Remaster]

Robin Trower

Long misty days
Told me they would change their ways
Once in a while will come my wayThe thrill is gone
Misty days linger on and on
Once in a while is here to stayWe feed this fire
Lovers in a nursery rhyme
The words belong to you
And the melody was mine
Long misty days
Told me in a million ways
Once in a while will come my wayOh how the moon
Shining at a lonely room
Weeping willow cry for meSing me a song
Simple as the day is long
I love someone crying to be freeAnd take the sky
And tell me if the moon is blue
And if it's meant to be
That my melody was used
Long misty days
Told me in a million ways
Once in a while will come my wayLong misty days
Told me they would change the ways
Once in a while is here to stay
