

Cross Me Off Your List

Hawthorne Heights

Don't let us concentrate
On all those things you love to hate
It makes this all worth the wait
But causes us to separate And I don't know how I should feel
(I should feel)
These lies make it all seem real Can you see this
Or wear it on your wrist?
It's everything you wanted
The mark you always missed Can you feel this
Cross me off your list?
She's everything you wanted
The mark you always missed With dry eyes, steady hands
I tried so hard to understand
Why you left us all alone
Three broken hearts with a broken home And I don't know how I should feel
(I should feel)
These lies make it all seem real Can you see this
Or wear it on your wrist?
It's everything you wanted
The mark you always missed Can you feel this
Cross me off your list?
She's everything you wanted
The mark you always missed Cross me off
Cross me off your list Can you see this
Or wear it on your wrist?
It's everything you wanted
The mark you always missed Can you see this
Or wear it on your wrist?
It's everything you wanted
The mark you always missed Can you feel this
Cross me off your list?
She's everything you wanted
The mark you always missed
