

Shine Silently

Nils Lofgren

Just another room
Just another town
Same old crazy people hanging around
Still you shine silently

Staring into space
Comin' down alone
Feel like packin' all my bags
And running home
Shine silently

Shine silently
I don't need no light in the darkness
Shine silently
No I won't get lost while your loves shines
Shines on me shines on me

People at the door
People on the phone
Same old story
No time on my own
Still shine silently

Nothing left to say
Nothing left to prove
When it's said and done
There's nothing left but you babe
Shine silently

Shine silently
I don't need no light in the darkness
Shine silently
No I won't get lost while your loves shines
Shines on me shines on me
