

Take To The Sky

Lil Rob

Your marijuana dreamer
Floating in endless night of
Unfulfilled Fantasies..
lighter sparking up
inhale, cough
{Lil' Rob speaking}
What's up?
Lil' Rob
Back on my own
The way it should be
The only way that it can be
Let's take to the sky
{Lil' Rob}
Pack my pipa full of grieffa
Just like my woman
I could never leave her, cheat her, need her
So I take a puff and another puff
Exhale, then I take a breather
Cause I'll take my time and do it right
I know where I'll be tonight
Clouding the night in my mind
Feelin' fine, this is mine
You wanna get high?
Well come back another time
When you really want to fly
Cause I plan to take it to the point
Where I don't know my name
Won't even know where I'm at
But want to come back
To this place, where I sit
Rather your lips will take a hit
Prepare for lick, bring the pipe
Or a spliff I hit is swift
God's gift, to this world, got me in a twirl
In a whirl, everything I see is plural
I'm just blazing, hallucinating
And I can't lie, smoking crepa chocolate tie
Lemon teardrops falling from my eye
Take to the sky, on my natural high

Till the day I die
 {chorus}
Take to the sky, of the natural high
Loving you more till the day I die
Take to the sky, of the natural high
 Loving you more
 {Lil' Rob}
I can smoke it on my own
 Never leave me alone
 I'm in my zone
 Stoned to the bone
Me in the dark, sittin' in the park
Forgettin' everything that hurts my heart
So I spark another joan, what's the poem?
Escape from reality, into a fantasy
That's sexuality, feel the passion
 When the smoke is passin'
 Everlastin' type of bud
 When I smoke my buds
 Takes me to a place
 Smile upon my face
 Cause she sets me free
 From the things I see

Let me be somebody, hear my plea
 It's only me, I'd rather be lonely
Roll it on my own, cause I hold my own
Toke it on my own, used to think of dyin'
Now I think of flyin', like I've never flown
Spread my wings and fly, Why lie?
 It's something that I can't deny
Take to the sky, on my natural high
 Till the day I die
 {chorus}
Take to the sky, of the natural high
Loving you more till the day I die
Take to the sky, of the natural high
 Loving you more
 {Lil' Rob}
 Life is like a maze
 Gots me in a craze
So I hide away in marijuanas maze
 Change my evil ways
 Stay half day
 Captured in the rapture

Love the way she plays
Gots me feelin' very loose
Dizziness, love it when I feel like this
I'm real like this, smokin' all this flavored shit
It's time to call it quits
But once again my lighter flicks
And I take another puff
Just can't get enough
Of this happiness
Smoking canibus
Devotion to my potent potions
What I've chosen, love it when my time is frozen
Gots me in that motion, like I'm close to floatin'
Takin' to the sky, when I want to fly
And I'm sittin' on my cloud, like Joe Buton
Don't stop now, la grafepa gone, and I'm gone
It's the wicked, slicked, slide, type a guy
With, it's something that you can't deny
Take to the sky, on your natural high
Till the day you die
{chorus}
Take to the sky, of the natural high
Loving you more till the day I die
Take to the sky, of the natural high
Loving you more
Ooooo
Lil' Rob
Roll me another, mmmmm
Feels so good up in my chest
No stress
When I'm smoking on Maryjane
Ooooo, she's callin' my name
No doubt about it
Yeah, yeah, yeah
Take to the sky
{chorus}
Take to the sky, of the natural high
Loving you more till the day I die
Take to the sky, of the natural high
Loving you more
Take to the sky, yea
