I Found You

INOJ

I've searched the world 'round and 'round
Never to find someone like you
People kept breaking my heart
I started to think love was untrueBridge 1
Then came you
>From above
When I was down you'd lift me up
Opened your key you were there
Showed me love said you cared
BabyChorus
I found love
Because of you I know
Cause of your love you've shown
Now I can give love backBaby so many times they would say that they would stay
All of my lifetime
And I believed every word
Until the day they said goodbyeBridge 2
Then came you
You made it right
I couldn't breath you gave me life
And now I know love so true
Happiness being with youChorus
I found love
Because of you I know
Cause of your love you've shown
Now I can give love backBabyChorus
I found love
Because of you I know
Cause of your love you've shown
Now I can give love backBridge 2Chorus
I found love
Because of you I know
Cause of your love you've shown
Now I can give love backChorus
I found love
Because of you I know
Cause of your love you've shown
Now I can give love backChorus
I found love

Because of you I know
Cause of your love you've shown
Now I can give love backI can give love back to you
