

# Stereolife

## Donkeyboy

I got a plan and I'll stay on my own  
I got a dream that I should let go  
Waiting for the day to come I know, I got a player that is out of control  
You gotta stay on my radio  
Waiting for the day to come And I know  
Spill it on fire and gold  
How could I lose control  
Cause it's you and I higher than all  
Fire is going away  
You're a star now stay on your own  
I feel you spin my life outa control I gotta work it out, take it away  
I gotta feel every word you say  
I'm waiting for the day to come  
I know, I feel I keep crossing the line  
And it feels like a crime zip-line  
Waiting for the day to come And I know  
Spill it on fire and gold  
How could I lose control  
Cause it's you and I higher than all  
Fire is going away  
You're a star now stay on your own  
I feel you spin my life outa control And I know... And I know  
Spill it on fire and gold  
How could I lose control  
Cause it's you and I higher than all  
Fire is going away  
You're a star now stay on your own  
I feel you spin my life outa control  
Spill it on fire and gold  
How could I lose control  
Cause it's you and I higher than all  
Fire is going away  
You're a star now stay on your own  
I feel you spin my life outa control
