

# Touching Everything

## Lil Scrappy

I'm in the street yeah, Scrappy touchin' ev'rything  
I'm in the mall, man Scrappy snatchin' ev'rything  
When I'm in the club, catch me smokin', drinkin' ev'rything  
Swear to God I ain't lyin', man I put that there on ev'rything  
You already, you already know  
You, you already, you already know, woah  
You already, you already know  
(It's your boy scrap)  
You, you already, you already know  
Soon as I wake up I'ma say my prayers  
Then I look up in my closet to see what I'm gon' wear  
I got the gees up shirt, got the gees up chain  
Got the g-unit shoes that's what I'm talin' 'bout mayne  
I hit the shower, hit the charger, put the key up in the starter  
Hit the mall a with my niggas  
Get the broad up, bend the cone then I holla  
Fukin' hardest 'cause I'm a mothafukin' balla  
I'm gangsta that's what it is and you gon' love it  
Fuck, bein' on TV I'ma show my ass in public  
Shorty its nutin', you know the young nigga buckin'  
You ask about me shorty and this what they say  
I'm the wildest young nigga in the A, shonuff  
Throwin' money in the bay 'cause I'm paid, hold up  
I went and spent 45 on my mouth, cut it  
Now, 45 thous, damn, shorty just look at my smile, hey  
I'm in the street yeah, Scrappy touchin' ev'rything  
I'm in the mall, man Scrappy snatchin' ev'rything  
When I'm in the club, catch me smokin', drinkin' ev'rything  
Swear to God I ain't lyin', man I put that there on ev'rything  
So what it is, man you already know what it is  
What's the deal, you already what it is  
Now what it is, you already know what it is  
What it is, you already know what it is  
You can catch me in the club gettin' drunk as usual  
The ol' wildin' nigga just be so crucial  
A couple a groupies wit some big ass booties  
Sloppy ass drunk tryin' do sometin' to me  
I'm like, baby doll hold up getcha mind right  
I'm lookin' at your face, yeah I mean you right

Your body off the chain but your head fine  
Say you ain't a freak, you's a goddamn liar

Hey, I'm on the goose, tryin' to get loose  
Gotta squad full of niggas that'll get at you  
Don't get me wrong my nigga on that role down home  
Even though we in the club, you can get that chrome  
I see you poppin' at the mouth, who you talkin' 'bout  
I ain't got bread at the house, now who you talkin' 'bout  
All that mean muggin' and that mumblin', who you talkin' 'bout  
When I start bussin', start runnin', that's what I'm talkin' 'bout  
I'm in the street yeah, Scrappy touchin' ev'rything  
I'm in the mall, man Scrappy snatchin' ev'rything  
When I'm in the club, catch me smokin', drinkin' ev'rything  
Swear to God I ain't lyin', man I put that there on ev'rything  
So what it is, man you already know what it is  
What's the deal, you already what it is  
Now what it is, you already know what it is  
What it is, you already know what it is  
Now, when you back touchin' your stomach, I can teach her sunumics  
A hundred miles and runnin', release who ever done it  
Them haters make me run it, wishin' my sales plumb it  
Oh, yeah, they mad 'cause I hit the mo'fukin' block gunnin'  
Stuntin', put them wheels on them 26's  
Bitches, one to the truck to see who in it  
A minute, his limo tinted watch what you sayin' nigga  
Oh yeah, we make plays, the radio we ain't playin' nigga  
The kush and the peels, I got it  
I put the push to the deal, I got it  
Eight karat Bently on the wrist, how 'bout it  
I bought the coop just to match and hop out it  
Yeah, I mean every word  
Gotta machine with a bean that'll clean your whole curb  
Scrap and tell 'em, we gee'd up  
From the feet up, the block need us  
I'm in the street yeah, Scrappy touchin' ev'rything  
I'm in the mall, man Scrappy snatchin' ev'rything  
When I'm in the club, catch me smokin', drinkin' ev'rything  
Swear to God I ain't lyin', man I put that there on ev'rything  
So what it is, man you already know what it is  
What's the deal, you already what it is  
Now what it is, you already know what it is  
Then what it is, you already know what it is, hey
