

New Year's Eve

Owen Campbell

After all this distance
Honey I can smile
Sleepin' at the airport on New Year's Eve
The fireworks light up the night in a distant city parade
Sleepless eyes I'm comin' to babe.
Honey when I met you,
You know I was a mess
And it's sweet when good times come clean
The fireworks light up my heart as I celebrate you babe,
Well US Air I'm headin' to you.
And here I belong,
The comfort in your love
I wouldn't be runnin' down again
Down a long lonesome road
Down, down down
After all this distance,
Honey I can stay
I'm not there where you are bound,
The fireworks light up my heart as I celebrate you babe
Well US Air I'm headin' home today
There I belong,
The comfort in your love
I wouldn't be runnin' down again,
Down a long, lonesome road
The fireworks light up my heart as I celebrate you babe,
Well US Air I'm headin' home today.
