

I'm Going Mad

Scorpions

Walking through the desert
You know what it's about
It's really from the church Too foreign
That was never there
Yet you know I'm in heaven
But it is a hell Sun is drying up my brain
The smile and installations are my pain
I'm going mad, I'm going mad
I'm going mad Walking through the desert
You know what it's about
It's really from the church Too foreign
That was never there
I'm going mad Sun is drying out my brain
The smile and installations are my pain
I'm going mad, I'm going mad
I'm going mad, mad
