Midnight Mover

U.D.O.

Hey you -- come on
I show you something
There is what it takes for you
Mmh, you better follow me
Go -- gonna ease your pain
Ooh, you will remember me
That's it what they used to say
Seducing everybody for the money
Slow down -- back off
Tell him you don't pay the price
He is a midnight mover
Coming in the night -- going with the light
He is a midnight mover
He can't go on in the sunlight
You better use your brain
Ooh, you are forever free
That's it, there's no place to stay
For someone who is losing, it's not funny
Slow down -- back off
Tell him you don't pay the price
He is a midnight mover
Coming in the night -- going with the light
He is a midnight mover
Midnight mover -- midnight mover
He is a midnight mover
Coming in the night -- going with the light
He is a midnight mover
He can't go on in the sunlight
He is a midnight mover
Coming in the night -- going with the light
He is a midnight mover
He can't go on in the sunlight
