

We're a Melody

The Jones Girls

When I'm asleep at night
You are the star of all my dreams
Sweet melody
You linger in my mind
Just like a never ending theme
You're the song I sing

I'm hearing serenades
Your name is music to me
La la la la la la
All I do is think of you and me
We're a melody
La la la la la la
All I do is think of you and me
We're a melody

You are my dream come true
The rhythm I can always feel
I know you're for real
Somehow we found the key
Together we are harmony
You're so right for me

I'm hearing serenades
Your name is music to me
La la la la la la
All I do is think of you and me
We're a melody
La la la la la la
All I do is think of you and me
We're a melody
