

Unstoppable

Fozzy

Talkin' 'bout me, oh so softly, you say I can't explain
I'll make it happen, no distraction, you know I can't be tamed
One night could be a million, one chance is all I need
I will complete this mission, damn you, I will succeed
Away from my past because in my eyes, I can do anything,
Now watch me rise
You'll never break me, I'm unstoppable
You'll never shake me, I'm unstoppable
You'll never break me, I'm unstoppable
You'll never shake me, I'm unstoppable
Don't need your rules, I ain't no fool, I live by my own code
Spark the fire of my desire and make my dreams explode
I do just what I want to because I know it's right
Don't tell me I can't make it, won't die without a fight
Away from my past because in my eyes, I can do anything
Now watch me rise
You'll never break me, I'm unstoppable
You'll never shake me, I'm unstoppable
You'll never break me, I'm unstoppable
You'll never shake me, I'm unstoppable
One night could be a million, one chance is all I need
I will complete this mission, damn you, I will succeed
Away from my past because in my eyes, I can do anything
Now watch me rise
You'll never break me, I'm unstoppable
You'll never shake me, I'm unstoppable
You'll never break me, I'm unstoppable
You'll never shake me, I'm unstoppable
You'll never break me, I'm unstoppable
You'll never shake me, I'm unstoppable
