

That One

Rick Springfield

That one really got me where it hurt
Hit me hard, put me face down in the dirt
I never ever felt this pain inside before
Her eyes seem to show me to the door
Even when she knew I wanted more
I could've should've ended as denied But I'm not gonna lie
I didn't want to be free
But she's staring at him
And done looking at me
And I know that I know
That she's made me come undone
I'm dead tired of getting down on my knees
And she promises me that I'm all that she sees
And she heads for the door
To the place where she will run
Into the arms of that one That one really hit below the belt
I didn't get it then, but I got dealt
I never knew that love could be denied before
I guess I learned the dark side of the flirt
Guess I'm just a sucker for a skirt
Guess I always thought that she was mine And I'm not gonna lie
I never wanted to see
She's staring at him
And done looking at me
And I know that I know
That she's made me come undone
I'm dead tired of getting down on my knees
And she promises me that I'm all that she sees
And she heads for the door
To the place where she will run
Into the arms of that one That one really nailed me to the floor
Now I know what I won't be looking for
Another pretty face where I'm just next in line But I'm not gonna lie
I didn't want to be free
But she's staring at him
And done looking at me
And I know that I know
That she's made me come undone
I'm dead tired of getting down on my knees

And she promises me that I'm all that she sees
And she heads for the door
To the place where she will run And she cuts through the chase
And I'm left with damage done
And I'm offered a race
As a new life has begun
In the arms of that one
To the arms of that one
