Push The Ghosts

The Twang

Well I been wasting away looking forward to this
I feel rotten inside waiting for the big time
You point the way and I'll follow the sign
I got the devil in me and he's pointing to the big time
I got the devil in me and he's pointing to the big time
He's pointing to the big timeChorus
Well I got jobs to do that involve me and you
If we get our act together we could push away the ghosts forever
Push away the ghosts forever
Push away the ghosts foreverSo pack your bags, book a seat on the street
You got lop sided views and a point where your feet meet
Home sweet home I'll never leave it alone
I got the devil in me and he's welcome in my zone
I got the devil in me and he's welcome in my zone
He's welcome in my zoneChorus 2Middle 8Well you feel that music pumping hard like you knew it would so push it
Repeat line
Well you feel that Neon pumping hard like you knew we would so push it
Repeat line
So push it, so push, so push itChorus
