Castanets

Alejandro Escovedo

If I should write a book for you
That brought me fame and fortune too
That book would be like my heart and me
Dedicated to youAnd if I should paint a picture too
That showed the loveliness of you
My art would be like my heart and me
Dedicated to youTo you because your love is the beacon
That lights up my way
To you because with you I know
A lifetime could be just one heavenly dayIf I should find a twinkling star
One half so wondrous as you are
That star would be like my heart and me
Dedicated to youTo you because your love is a beacon
That lights up my way
To you because with you I know
A lifetime could be just one heavenly dayIf I should find a twinkling star
One half so wondrous as you are
That star would be like my heart and me
Dedicated to you
