

# Sick Muse

## Metric

Watch out, Cupid stuck me with a sickness  
Pull your little arrows out and let me live my life  
You better watch out, Cupid stuck me with a sickness  
Pull your little arrows out, let me live my life  
The one I better lead, all the blinds are fantasies  
And we looked at them eleven ways  
You said, "Look at me", I looked away  
And you wrote the song I wanna play  
I'll write you harmony in C  
Everybody, everybody just wanna fall in love  
Everybody, everybody just wanna play the lead  
Everybody, everybody just wanna fall in love  
Everybody, everybody just wanna play the lead  
Play the lead, play the lead  
Watch out Cupid, money is a sick muse  
Pull your little arrows out and let me live my life  
She said, "I'm with stupid", money is a sick muse  
Pull your little arrows out and let me live my life  
The one I better lead, all the blinds are fantasies  
And we looked at them eleven ways  
You said, "Look at me", I looked away  
And you wrote the song I wanna play  
I'll write you harmony in C  
Everybody, everybody just wanna fall in love  
Everybody, everybody just wanna play the lead  
Everybody, everybody just wanna fall in love  
Everybody, everybody just wanna play the lead  
Play the lead, play the lead  
I'll write you harmony in C  
Everybody, everybody just wanna fall in love  
Everybody, everybody just wanna play the lead  
Everybody, everybody just wanna fall in love  
Everybody, everybody just wanna play the lead  
Play the lead, play the lead
