War On the Palaces

Refused

I carry history with me
I carry hope
All the nameless faces before us
Let's carry them allI wanna carry the dead
Wage war on the palaces
I wanna carry the dead
Wage war on the palacesYou carry judgment and privilege
With morals to spend
Can't see the grids for the structures
You're just one of them
Who talk about freedom and progress
With a corpse in your mouth
You've never tasted the violence
That gave us our rightsHow did you think we got here?
You took our gains for granted
You think we stumbled upon them on our way to find ourselvesLet's carry the dead
Wage war on the palaces
I wanna carry the dead
Wage war on the palaces
I wanna carry the dead
Wage war on the palaces
I wanna carry the deadBecause you know you'll be judged too
What did you fight for, exactly what did you do?
Let's get rhetorical without going too far
Tell me who's responsible?
You fucking areLet's carry the dead
Let's carry the dead
Let's carry the dead
Let's carry
War on the palaces
