Believers

Handsome Ghost

You - wanna swim with the sharks
And if they tear you apart
Then it is what it is, said you don't' wanna live
SoftYou - light a smoke in the bar
Like they know who you are
It was pressed in your mouth, they were throwing us out
HardI don't wanna be left if it's crumbling
If you wanna connect I am listening
Will meet me there
We've been deep underneath, aren't you done with this scene
Don't you want to believe
We could be more than believersYou - you can follow me home
If you sleep in your clothes
And you wake to alarms, shake the cold from your arms
OutI dont' wanna be left if it's crumbling
If you wanna connect I am listening
Will you meet me there
We've been deep underneath, aren't you done with this scene
Don't you want to believe
We could be more than believers
We could be more than believers
We could be more than believers
We could be more than believers
We could be moreWe're settled in sleep but we're waking
Packing our things in the dark
You carry your clothes and you're changing
The wanting is hardI dont' wanna be left if it's crumbling
If you wanna connect I am listening
Will you meet me there
We've been deep underneath, aren't you done with this scene
Don't you want to believe
We could be more than believers
If you wanna escape quit your covering
If it's all gone to waste if you're settling
If you're staying here let it go head on home when it's gone you will know
Get it hot burn it slow, we could be more than believers
We could be more than believers
We could be more than believers
We could be more than believers

We could be more
