

Glitter & Gold

Steps

You paint a picture of paradise
The colors shine and sparkle
You say you want me but dont think twice
You're caught in a viscious circle where I was
Wishing for what could have been
I was blind to take it in
You build the world by promising with empty wordsActing glitter and gold
By the lies you told me that won't go away
Don't try to pretend
We can turn around and start it all again
Glitter and gold
There's no happy ending
Cause this is goodbye
The truth is too late
Only takes so much before my heart will breakAnd now it's too lateIt's funny how the sweetest lies
Pass through your lips like candy
Another trick and you disguise
Another tale to tell meI've heard
All the stories that you usedAll the lines and broken truth
You make a fool believing you with empty wordsActing glitter and gold
By the lies you told me that won't go away
Don't try to pretend
We can turn around and start it all again
Glitter and gold
There's no happy ending
Cause this is goodbye
The truth is too late
Only takes so much before my heart will break
And now it's too lateIt's too late
And now it's too lateHmm, it's too lateGlitter and gold
Glitter and goldThere's no happy ending
Cause this is goodbye
The truth is too late
Only takes so much before my heart will breakActing glitter and gold
By the lies you told me that won't go away
Don't try to pretend
We can turn around and start it all again
Glitter and gold
There's no happy ending

Cause this is goodbye
The truth is too late
Only takes so much before my heart will break
And now it's too late
