Young Lovers

Stereo Alchemy

So there you are with your broken heart,
My dear you know that six of those,
Are there for every star.
Like a cheap old toy in a child's hand
Where you can cry until it's fixed,
But it will break again.
Young Lover,
Let's waste no time.
You're too concerned with Heaven.
And I see it in your eyes.
Young Lover,
Right now you're mine.
Don't think of your tomorrows,
Let's live like we could die.
Tonight.
Don't freeze up now,
Have you seen the news?
It would appear the world is ending.
Could be very soon.
And yes, I would wait for you 'til the planets all collide.
But I'm holding you so close right now,
What's wrong with tonight?
Young Lover,

Let's waste no time.
You're too concerned with Heaven.
And I see it in your eyes.
Young Lover,
Right now you're mine.
Don't think of your tomorrows,
Let's live like we could die.
Tonight.
How is it so dark, your past?
How did we grow up so fast?
How is it so dark, your past?
We're growing up so fast.
Young Lover.
Young Lover.
Young Lover,

Let's waste no time.
You're too concerned with heaven
It's right there in your eyes.
Young Lover,
Right now you're mine.
Don't think of your tomorrows,
Let's kiss like we could die.
Tonight
