

World Keeps Turning

Brett Dennen

[Chorus]

This world this world keeps turning, turning around
This world keeps turning me upside down
I can't do nothing to slow it down
This world keeps turning and turning around

Everything you have today.
Soon could be gone away
Yesterday I had no sorrow.
Here today and gone tomorrow
Here today and gone tomorrow

[Chorus]

People can be so cruel.
They'll cheat you and treat you like a fool
They'll drag your dreams through the dust.
Till you don't know who to trust
I don't know who to trust

The more I learn the less I know
Got so far to go.
Got so far to go

[Chorus]
