

Frozen Fireworks (feat. Fader Lima)

No Mana

All alone I freeze. . .

Emotions, So cold
Fallen, Like a winter snow
Sheltered, the windows glaze
mm mm mm
Lost with, no feeling
Never been betrayed before
The tears are now frozen in this space

With the surrender of our time
Surrender of our time
Surrender of our time

You made the choice to let go
Diminished within your light flow
To fade away, fade away

The truth is reflected
Somber in disguise
That's to be expected
Promised empty lies
(Repeat)

Emotions, So cold
Fallen, Like a winter snow
Sheltered, the windows glaze
mm mm mm
Lost with, no feeling
Never been betrayed before
The tears are now frozen in this space

With the surrender of our time
