Don't Wake Me

Moonchild

I waited and I waited for a love like this
now I never wanna let you go
but just to keep holding on I have to wait again
while time wears at all I knowI lie awake and count the days
wishing I could dream them all awaydon't wake me baby, I know the way that it ends
don't wake me baby, not til I see you again
don't wake me, I know the way that it ends
don't wake me babyit gets harder and harder just remembering
I can't escape the doubt, it's in the air
holding out for winter and worried bout spring
every moment that I know we'll shareI lie awake and count the days
wishing I could dream them all awaydon't wake me baby, I know the way that it ends
don't wake me baby, not til I see you again
don't wake me, I know the way that it ends
don't wake me babywhen I fall asleep, I know I'll see
a thousand lovely dreams, only you and me
awake, how long the days always seemdon't wake me baby, I know the way that it ends
don't wake me baby, not til I see you again
don't wake me, I know the way that it ends
don't wake me baby
2x
