

God's Great Banana Skin

Chris Rea

Don't you ever think no one's better than you?
Don't you ever think no one's better than you?God's great banana skin
Gonna getcha
God's great banana skin
God's great banana skin
Gonna getcha
God's great banana skinGo down my road
Running just as fast as I can
Nobody knows
Which is the better way'Coz when that Man
In the sky points His finger at you
Don't you ever think
No one's better than you?God's great banana skin
Don't you laugh at nobody
You'll let the bad luck in
God's great banana skin
It's the way that it gets youWith every day
Good luck comes in the strangest of ways
Just keep your head down
Don't listen what your ego will say'Coz when that Man
In the sky points His finger at you
Don't you ever think
No one's better than you?God's great banana skin
God's great banana skin'Coz when that Man
In the sky points His finger at you
Don't you ever think
No one's better than you?God's great banana skin
Gonna getcha you
God's great banana skin
God's great banana skin
God's great banana skin
