

I Write Your Name (feat. Jay-Jay Johanson)

Claptone

When I write your name
In the palm of my hand
On a far away beach
With a tweak of sands I can feel you all around me bend
And inside of me is love
I can feel you here within my soul
And inside of me is love
...is love
...is love
When I carve your name
Onto a willow tree
And on every desk
In the library
I can feel you all around me bend
And inside of me is love
I can feel you here within my soul
And inside of me is love
...love
...is love
And inside of me is love
